LOYOLA UNIVERSITY BULLETIN

Vol. XX

August, 1938

No. 6

Published in the months of March, April, May,
June, July, August, September, November.

Entered as Second-Class Matter April 27, 1925,
at the Post Office at New Orleans, La.,
under the Act of August 24, 1912.

Loyola University, Incorporated April 15, 1912. Authorized to grant degrees by The General Assembly of Louisiana for the year 1912.

The Legal and Corporate Title of the University is
"LOYOLA UNIVERSITY, NEW ORLEANS, LA."

All donations, endowments, legacies, bequests, etc., should be made under this title.

SCHOOL CALENDAR—SESSION 1938-1939

First Semester

- Sept. 9, 10,
Friday, Saturday.....Examination for Entrance and for Removal of Conditions.
- Sept. 12, Monday.....Registration of Freshmen.
- Sept. 13, Tuesday.....Registration of Sophomores; Aptitude Tests for Freshmen in English and Foreign Languages.
- Sept. 14, Wednesday.....Registration of Upper Division Students; Aptitude Test for Freshmen in Mathematics.
- Sept. 15, Thursday.....Classes Begin.
- Sept. 17, Saturday.....Registration for Saturday Classes.
- Sept. 19, 20,
Monday, Tuesday.....Registration for Night Classes.
- Sept. 21, Wednesday.....Night Classes Begin.
- Sept. 23, Friday.....University Convocation, 11:00 A. M.
- Sept. 24, Saturday.....Saturday Classes Begin.
- Sept. 24, Saturday.....Latest Date for Filing of Applications of Candidates for Degrees to be Conferred in June, 1939.
- Sept. 28, Wednesday.....Latest Date for Change in Registration.
- Sept. 29, Thursday.....Mass of the Holy Ghost, 10:00 A. M.
- Nov. 1, Tuesday.....Solemnity of All Saints.
- Nov. 15, Tuesday.....University Convocation, 11:00 A. M.
- Nov. 23, Wednesday.....Mid-Semester Advisory Reports.
- Nov. 24, Thursday.....Thanksgiving Day.
- Dec. 8, Thursday.....Solemnity of the Immaculate Conception.
- Dec. 20, Tuesday.....Christmas Vacation Begins After Last Scheduled Class.
- Jan. 5, Thursday.....Classes Resumed.
- Jan. 19, Thursday.....First Semester Examinations Begin.
- Jan. 21, Saturday.....First Semester Examinations Begin for Saturday Students.
- Jan. 23, Monday.....First Semester Examinations Begin for Night Students.

Second Semester

Jan. 30, Monday.....	Second Semester Begins.
Feb. 8, Wednesday.....	University Convocation, 11:00 A. M.
Feb. 10, Friday.....	Examinations for Removal of First Semester Conditions.
Feb. 11, Saturday.....	Examinations for Removal of First Semester Conditions, Night and Saturday.
Feb. 13, Monday.....	Latest Date for Change in Registration, Second Semester.
Feb. 20, 21, Monday, Tuesday.....	Mardi Gras Holidays.
March 1, Wednesday.....	Theses Due in Final Form from Candidates for Degrees to be Conferred in June, 1939.
March 31, Friday.....	Mid-Semester Advisory Reports.
April 5, Wednesday.....	Easter Vacation Begins After Last Scheduled Class.
April 12, Wednesday.....	Classes Resumed.
April 24, Monday.....	University Convocation, 11:00 A. M.
May 18, Thursday.....	Ascension Day.
May 20, Saturday.....	Second Semester Examinations for Saturday Classes.
May 24, Wednesday.....	Second Semester Examinations for Day School Classes.
May 29, Monday.....	Second Semester Examinations for Night Classes.
June 4, Sunday.....	Baccalaureate Services, 10:00 A. M.
June 5, Monday.....	Commencement Exercises, 8:00 P. M.
June 19, Monday.....	Registration for Summer Session.
June 26, Monday.....	Latest Date for Filing Applications of Candidates for Degrees to be Conferred in July, 1939.
June 30, Friday.....	Theses Due in Final Form from Candidates for Degrees to be Conferred in July, 1939.
July 28, Friday.....	Commencement Exercises, Summer Session.

BOARD OF TRUSTEES

VERY REV. HAROLD A. GAUDIN, S.J., Ph.D., D.D., *Chairman*
REV. THOMAS A. CAREY, S.J., A.M., *Vice-Chairman*
REV. JAMES J. WALLACE, S.J., A.M., *Secretary*
REV. MARTIN P. BURKE, S.J., Ph.D.
REV. FRANCIS A. CAVEY, S.J., S.T.D.
REV. PERCY A. ROY, S.J., Ph.D.
REV. MICHAEL J. WALSH, S.J., A.M.

OFFICERS OF ADMINISTRATION

VERY REV. HAROLD A. GAUDIN, S.J., Ph.D., D.D., *President*
REV. PERCY A. ROY, S.J., Ph.D., *Dean*
REV. FRANCIS A. CAVEY, S.J., S.T.D., *Treasurer*
REV. FRANCIS L. JANSSEN, S.J., A.M., *Regent*
REV. EDWARD T. CASSIDY, S.J., A.M., M.S., S.T.L., *Dean of Men*
MISS MARGARET E. CAREY, *Registrar*
MISS CARMEL V. DISCON, A.M., *Assistant Registrar*
MRS. LENA MARCY, Ph.B., B.S. in L.S., *Librarian*
MISS SALLIE LEUER, A.B., B.S. in L.S., *Assistant Librarian*
MR. GUY J. KNOBLOCH, *Bursar*

OFFICERS OF INSTRUCTION

ROBERT J. AINSWORTH, LL.B., *Instructor in Public Speaking.*
JOHN G. ARNOLD, JR., Ph.D., *Professor of Biology, Chairman of the Department.*
PAUL F. BAILEY, B.S., *Assistant Professor of Chemistry.*
REV. JOSEPH B. BASSICH, S.J., Ph.D., *Professor of Education.*
HUGH MERCER BLAIN, Ph.D., *Professor of English, Chairman of the Department, on leave of absence.*
JEFFERSON DAVIS BLOOM, JR., B.E.E., *Instructor in Physics.*
LUCILLE BOSTICK, A.M., *Instructor in Education.*
REV. ROBERT M. BROOKS, S.J., A.M., *Professor of Classical Languages, Chairman of the Department.*
REV. MARTIN P. BURKE, S.J., Ph.D., S.T.D., *Professor of Philosophy, Chairman of the Department.*
REV. JOSEPH A. BUTT, S.J., C.P.A., A.M., D.D., *Associate Professor of Accounting and Spanish.*

- REV. THOMAS G. CARTER, S.J., A.M., S.T.L., Assistant Professor of English.
- REV. EDWARD T. CASSIDY, S.J., A.M., M.S., S.T.L., Professor of Religion, Chairman of the Department
- REV. CHARLES C. CHAPMAN, S.J., Ph.D., Associate Professor of History and Political Science.
- JOHN V. CONNOR, Ph.D., Professor of Economics, Chairman of the Department.
- REV. GODFREY J. COOK, S.J., A.M., S.T.L., Assistant Professor of Philosophy and German.
- AUGUSTE COYLE, S.J., A.M., Instructor in Classical Languages.
- LEONARDO C. DE MORELOS, A.M., Instructor in Romance Languages.
- LEO DEUTCH, A.B., Instructor in Physical Education.
- CHARLES DITTMANN, JR., A.M., Instructor in Economics.
- ARTHUR T. DONOHUE, Ph.D., Professor of Sociology, Chairman of the Department.
- RICHARD H. DOYLE, Ph.D., Professor of History, Chairman of the Department.
- TIMOTHY L. DUGGAN, M.S., Instructor in Biology.
- GERALD J. EBERLE, A.M., Assistant Professor of English, on leave of absence.
- REV. FRANCIS X. ENTZ, S.J., Ph.D., S.T.D., Associate Dean, Professor of Latin.
- D. IVAN FARNSWORTH, M.S., Associate Professor of Biology.
- FERDINAND H. FISHER, A.M., Assistant Professor of History.
- HARRY T. FLEDDERMANN, M.S., Assistant Professor of Mathematics.
- REV. GEORGE A. FRANCIS, S.J., Ph.D., Professor of Chemistry, Chairman of the Department.
- FRANK GORMLEY, Assistant in Physical Education.
- M. DANIEL HORNE, A.M., Instructor in English.
- REV. H. JOSEPH JACOBI, M.S., Lecturer in Sociology.
- REV. FRANCIS L. JANSSEN, S.J., A.M., Associate Professor of Philosophy and Religion; Regent.
- JULIAN JURGENS, Ph.G., B.S., Assistant Professor of Chemistry.
- REV. TERENCE A. KING, S.J., A.M., S.T.L., Associate Professor of English.

LEONARD J. LARGUIER, S.J., M.S., Instructor in Mathematics.

ALBERT RICHARD LOPES, Ph.D., Professor of Romance Languages, Chairman of the Department of Modern Foreign Languages.

CARLOS LYNES, A.M., Instructor in Romance Languages.

W. JAMES LYONS, Ph.D., Instructor in Physics.

REV. THOMAS F. MAHER, S.J., A.M., Instructor in English.

REV. KARL A. MARING, S.J., Ph.D., S.T.D., Professor of Physics and Mathematics, Chairman of the Department; Director of the Seismograph Station.

EDMOND L. MERILH, M.S., Associate Professor of Biology.

JOSE O. MONASTERIO, B.C.E., Assistant Professor of Mathematics.

LARRY MULLINS, A.B., Instructor in Physical Education.

REV. RICHARD D. NEEDHAM, S.J., A.M., S.T.L., Instructor in Religion.

REV. EUGENE J. O'CONNOR, S.J., Ph.D., Professor of English, Associate Chairman of the Department.

VIOLETT O'REILLY, A.M., Instructor in Education.

RICHARD PFEFFERLE, A.B., Instructor in Physical Education.

JOHN W. RUSWINCKEL, M.B.A., C.P.A., Instructor in Economics.

GEORGE HENRY SEFEROVICH, B.S., M.B.A., Instructor in Economics.

REV. LOUIS G. SONIAT, S.J., A.M., Assistant Professor of Romance Languages.

REV. H. ALLAIN ST. PAUL, S.J., A.M., S.T.L., Assistant Professor of History.

MARK SWITZER, A.B., Instructor in Romance Languages.

EMIL TELFEL, A.M., Instructor in English.

WALTER E. VON KALINOWSKI, Ph.D., Assistant Professor of German.

JANE P. WALSH, A.M., Instructor in Physical Education.

REV. JAMES F. WHELAN, S.J., Ph.D., Professor of Education, Chairman of the Department.

FACULTY COMMITTEES

- Committee on Admission and Classification:** Rev. P. A. Roy, Chairman; Rev. R. M. Brooks, Miss M. E. Carey, Dr. A. R. Lopes, Rev. J. F. Whelan
- Committee on Discipline:** Rev. F. L. Janssen, Chairman; Rev. M. P. Burke, Rev. J. A. Butt, Rev. E. T. Cassidy, Dr. R. H. Doyle, Dr. A. R. Lopes, Mr. J. O. Monasterio.
- Committee on Faculty Rank and Tenure:** Rev. F. A. Cavey, Chairman; Rev. M. P. Burke, Rev. K. A. Maring, Rev. P. A. Roy, Rev. J. F. Whelan.
- Committee on Graduate Studies and Degrees:** Rev. E. J. O'Connor, Chairman; Dr. J. G. Arnold, Dr. A. R. Lopes, Rev. P. A. Roy, Rev. J. F. Whelan.
- Committee on Undergraduate Studies and Degrees:** Rev. P. A. Roy, Chairman; Dr. J. G. Arnold, Rev. R. M. Brooks, Rev. M. P. Burke, Rev. E. T. Cassidy, Dr. J. V. Connor, Dr. A. T. Donohue, Dr. R. H. Doyle, Rev. G. A. Francis, Dr. A. R. Lopes, Rev. K. A. Maring, Rev. J. F. Whelan.
- Committee on Educational Programs:** Dr. J. V. Connor, Chairman, Mr. P. F. Bailey, Rev. E. T. Cassidy, Rev. C. C. Chapman, Dr. A. T. Donohue, Mr. D. I. Farnsworth, Mr. F. H. Fisher, Rev. H. A. St. Paul, Rev. J. F. Whelan.
- Committee on Bulletins:** Rev. P. A. Roy, Chairman; Dr. J. G. Arnold, Dr. J. V. Connor, Dr. R. H. Doyle, Mr. H. T. Fleddermann, Rev. G. A. Francis, Rev. F. L. Janssen, Mr. E. L. Merilh, Rev. L. G. Soniat.
- Committee on Student Debates:** Rev. T. F. Maher, Chairman; Mr. R. J. Ainsworth, Rev. J. B. Bassich, Rev. T. A. King, Rev. H. A. St. Paul.
- Committee on Student Dramatic Art:** Dr. A. J. Bonomo, Chairman; Rev. G. C. Chapman, Rev. G. A. Francis, Rev. L. G. Soniat.
- Committee on Student Publications:** Rev. F. L. Janssen, Chairman; Dr. H. M. Blain, Rev. G. J. Cook, Rev. E. J. O'Connor.
- Committee on Student Social Activities:** Rev. F. L. Janssen, Chairman; Rev. J. A. Butt, Rev. E. T. Cassidy, Mr. T. L. Duggan, Mr. F. H. Fisher, Mr. J. Jurgens, Rev. R. D. Needham.

GENERAL STATEMENT

History of the College The Jesuits came to New Orleans in 1847 with the purpose of establishing a College of Liberal Arts and Sciences. On February 1, 1849, the College began its remarkable career at the corner of Baronne and Common Streets. In 1904 an uptown preparatory school was started as Loyola Academy. Later this institution was developed into a regular College of Arts and Sciences. In 1910 the College of the Immaculate Conception on Baronne Street was merged with Loyola College into one institution. The High School, formerly maintained under the charter of the College of the Immaculate Conception, became the Jesuit High School.

In response to a general demand from the public and an urgent request from His Excellency, Most Reverend James J. Blenk, then Archbishop of New Orleans, Loyola College was expanded into Loyola University in the fall of 1911. The University was authorized in 1912 to grant all university degrees by the General Assembly of Louisiana of that year.

Loyola University of the South is but one of the many universities and colleges conducted by the Jesuit Fathers in the United States and in many other countries. In the United States alone, the Jesuits conduct 63 institutions with combined enrollment of 57,730 students.

Jesuit System of Education Jesuit universities and colleges are quite distinctive. A system of education based on the best European traditions and the experience and research of scholars in many countries became the characteristic method of Jesuit teaching, and was embodied in the collection of pedagogical principles and practices known as the *Ratio Studiorum*.

The Jesuit system is unique in its aim and objective as well as in its method of approach. Thoroughly convinced that religion is not an appendage to education, but a very vital part of the training of the student and of the subject-matter of his courses, the Jesuits have always made as the goal of education the blending of the supernatural with the natural. Their purpose has been to produce a perfect man, seeking to develop his moral character as well as his wits, his soul as well as his body; believing that a true, cultured citizen of any state must be loyal to his God, his church, and his country.

As college life is the field in which youth with energy and initiative seeks to prepare itself for life's struggles, literature and science are studied in the light of an all-embracing philosophy which unifies knowledge and motivates action. The system is opposed to the pedagogical errors of undigested cramming, uncorrelated electives, over-specialization. The formation of habits of study, reading and research, of quick thinking and exact expression is characteristic of their aim. Personal contact with the professors, whose example, taste and experience are often a more potent factor of education than the professional lecture, is a vital part of the system.

Jesuit education prepares its students for eternity as well as for time; for life as well as for vocation.

The Need of College Education Today the professions, the arts, the sciences, as well as business, look for a college education in their members. The mere specialist, the master of one skill or subject, does not make for progressive civilization and culture. Man as a social being must have a broad vision and wide experience. He must be familiar with many fields of thought and interest.

This rounded culture should be the fruit of college experience. Through selected courses, the investigating mind is led into the various fields of systematized knowledge. Correlation of these courses makes for unity and thoroughness, for mastery of one's chosen subject without ignorance of the others, for a well-stored mind that has been trained to think for itself and has grown capable of working out problems that present themselves in school and in later life.

Besides, one learns poise and refined bearing, acquires prudence and good judgment, from daily contact with fellow-students of talent and ambition. By this hourly intercourse with one's fellow-men of the best type, defects are overcome, habitual attitudes adopted and perfected, and character is molded.

Classical Studies It is one of the regrettable results of the present unrest in the educational world, where the forces arrayed to give vocational training, mechanical development, wage-earning skill and physical culture, are clashing with the traditional classical methods, that the cultural and academic subjects have lost their prestige. It is unfortunate, because no other curriculum has been found to provide the comprehensive training of mind, heart and will as surely and as

efficiently as did the classical studies when they flourished in a golden age as the cause and the fruit of erudition, scholarship and refinement.

Modern Sciences It is a grievous error to believe that the lovers of literature and art must be enemies of science and invention. The history of science shows plainly how the great scientific discoveries came out of the institutions hallowed for their classical learning. Until recent times all scientific information and the disputes and inventions of scientists found their way to the public through the Latin tongue.

Ample facilities are offered in the College of Arts and Sciences to the lover of natural science. Large, fully equipped laboratories for general and specialized Chemistry, Biology, Medical Technology, and Physics are provided. Consecutive courses covering four years of intensive study lead to the degree of Bachelor of Science.

Commerce and Finance As college graduates frequently choose careers in the business world, a specialized curriculum in the subjects of Commerce and Finance is offered. Efforts are made to prepare young men for important positions in the various types of industrial and financial administration. After four years of intensive study one may earn the degree of Bachelor of Science.

Bequests and Gifts Because of its rapid growth the University must look to its friends and benefactors, and to all those whose bounty is being devoted to the cause of higher education, for the generous contributions which will enable the University to continue its building program. The University hopes for a continuance of financial as well as moral support from those who believe in placing college education within the reach of every deserving student, and who consider that education the safest and best which postulates as the foundation of its intellectual development the formation of character through moral and religious education.

The University cherishes the memory of all its benefactors, great and small. These share in the good works and prayers of the Jesuits of Loyola and will be remembered long after they are gone.

Among the distinguished benefactors of the University should be mentioned: Mr. and Mrs. E. J. Bobet, Mr. and Mrs. W. J. Vincent, Mrs. S. O. Thomas, Mr. and Mrs. Wm. P. Burke,

Mr. Lawrence Fabacher, K. of St. G., Miss Katherine McDermott, Hon. Joseph A. Breaux, Mr. Bernard Ghio, Mrs. J. B. Palmer, and Mrs. George Swarbrick.

Those who are desirous of helping Loyola University in its sublime mission of higher education by erecting buildings as family memorials, or by endowing departments or lecture-chairs in any of the Schools or Colleges, are requested to make their donations, legacies and bequests in the proper legal form, as shown on page 31 of this Bulletin. One may specify the purpose or use to be made of the gift, and this intention will be scrupulously observed. It is well to state whether the sum is for building and equipment or for endowment, as the latter must be invested and only the accruing interest may be used.

Scholarships Many bright and ambitious boys of approved moral character are debarred from the opportunity of entering college to prepare for a professional career because they have not sufficient funds.

The University on the one hand is most anxious to assist each deserving boy in acquiring a higher education; but, on the other, it depends largely on income derived from fees to maintain the departments. The University, therefore, must look to generous benefactors who, in their charity, wish to help native sons by supplying funds necessary to care for a young man's tuition.

A Perpetual Scholarship is founded when an endowment of \$4,000.00 is set aside for this purpose.

A Course Scholarship represents an amount which will cover the tuition of one student during his four years of college. The sum of \$560.00 may be deposited or \$140.00 may be paid annually.

An Annual Scholarship is provided by the yearly donation of \$140.00.

Scholarships cover the tuition fee only. The holder of the scholarship must pay the other fees at the beginning of the year, and he must at all times set an example of good conduct and serious application. The honor will be forfeited by any holder of a scholarship whose grades during a semester are unsatisfactory. Scholarships granted in one Department cannot be transferred to any other Department.

The President and Faculty wish to express their grateful appreciation of the generosity of those who have already founded scholarships, and to urge others to increase this charitable fund for the benefit of deserving young men.

The following are scholarships which have been placed at the disposal of the University:

- The W. P. Burke Scholarships (three).
- The Rev. Francis X. Twellmeyer, S.J., Scholarship.
- The Rev. A. E. Otis, S.J., Scholarship.
- The Rev. Albert J. Biever, S.J., Scholarship.
- The Louisiana State Councils of K. C. Scholarships (seven).
- The St. Ignatius Scholarship, founded by Miss E. S. Fitch.
- The St. Ignatius of Loyola Scholarship.
- The Men's Sodality of Jesuits' Church Scholarship.
- The Francis Xavier Wegmann Scholarship.
- The Virginia Bobet Scholarship.
- The Louise Thomas Scholarship.
- The Albert J. B. Lapeyre Memorial Scholarship.
- The Ladies' Marquette Auxiliary Scholarship.
- The Mrs. Josephine Burke Palmer Scholarships (two).
- The Hon. Joseph A. Breaux Scholarships (twelve).
- The Joseph A. Lipari Scholarships (three).

Sodality of the Blessed Virgin Mary For the purpose of fostering religious faith and fervor, and to encourage better students to spiritual and scholastic leadership, the University Sodality offers many opportunities for personal development, as well as training and practice in social work and religious activity. Weekly meetings are held for the discussion of phases of Catholic life.

Student Council The Student Council consists of eighteen members, representing the College of Arts and Sciences, the Schools of Law and Dentistry, and the Colleges of Pharmacy and Music. These students are selected by the student body with the approval of the Faculty. The duty of the Council is to unify student thought and action. It conducts general meetings and elections, sponsors and manages interclass contests, contributes to the student publications, and leads and directs student activities.

The Aristotelian Forum The function of this philosophy club is to promote greater active interest in scholastic philosophy by more intensive study, lectures, and public disputations.

Language Clubs To foster a deeper appreciation of the finer literature of modern foreign languages, French, German, Italian, and Spanish clubs are conducted by those more advanced students who qualify for membership.

Scientific Societies The Biology, Chemistry, Physics, and Mathematics Societies meet regularly for the discussion of special problems and for special lectures on scientific subjects. The students of the College of Arts and Sciences are eligible to membership subject to the respective special requirements for admission to each society.

Debating Clubs The students are encouraged to participate weekly in exercises of public speaking. To further this activity two debating clubs conduct weekly programs and engage in interscholastic debates with other universities in various sections of the country. These two clubs are known respectively as The Edward Douglass White Society and The Chief Justice Charles A. O'Niell Society.

Thespian Society The purpose of the Thespian Society is to develop and give an outlet to the dramatic talent of the students. With this object in view, several plays are given during the year.

Glee Club Students of the College of Arts and Sciences are eligible for membership in the Loyola Glee Club. The Glee Club takes an active part in the public entertainments and assemblies of the University.

University Band Membership in the University Band is open to the students of the College of Arts and Sciences if they have the required ability and training. All who become members are required to be regular and prompt in attendance at the appointed rehearsals and at all performances.

Student Publications The students of the University, under Faculty supervision, issue two publications, the *Maroon*, a weekly, and the *Students' Handbook*, an annual, the editors of which are appointed by the Committee on Student Publications, and they in turn appoint their editorial staffs. The business management is in the hands of the students.

Student Expenses The basic fee is \$175.00 a year. An additional fee of \$25.00 a year is charged for each laboratory science course. All fees are paid in quarterly installments, namely,

on the day of registration in September, December 1, February 1, and May 1. Unless all of his indebtedness is promptly paid, the student will not be admitted to regular classes nor be allowed to take any tests or examinations.

Students will be taxed for excessive breakage or destruction of University property. The decision in each case will be made by the University.

A fee of \$2.00 is charged for each entrance examination, for late registration, and for a second transcript of credits.

Each student may rent an individual locker for \$2.00 a year.

The graduation fee is \$25.00, payable on May 1. Each Senior is required to make a deposit of \$5.00 on the date of registration in September for his use of the academic cap and gown during the year. This deposit will be refunded after his graduation, provided he returns the cap and gown in good condition.

If a student withdraws from the University within ten days after each quarterly payment is due, he will be refunded the full amount of his payment for that quarter less \$10.00. No other refunds will be made except to the student who has paid a science laboratory fee and with permission of the Dean withdraws from that laboratory science course within ten days after registration. He will be refunded the full amount that he has paid for the course.

Entrance Procedure Applicants for admission to the Freshman class must be of good moral character, and must present evidences of the satisfactory completion of four years of high school work or its equivalent.

The specific units of credit that are required and other units that may be presented for admission to the Freshman class are listed under Admission Requirements.

Application for admission accompanied by proper credentials shall be filed with the Registrar at least two weeks in advance of the date of registration. It is obligatory to submit on entrance official records from all schools previously attended. These credentials are to be sent directly by the proper officer of the school in which they were earned and not through the student. Credentials which are accepted for admission become the property of the University and are kept permanently on file. Blank forms for transcripts of credits may be had on application to the Registrar.

It is recommended that applicants have their credentials sent to the Registrar immediately after graduation from high

school. This will enable the Committee to pass on their eligibility and to inform them of any deficiencies that must be made up in Summer School.

The University reserves the right to refuse admission to applicants whose previous work is of such a grade as to create doubt regarding their ability successfully to pursue their scholastic work in the University.

All students are expected to be matriculated before the beginning of classes for the session, thus allowing them ample time to be assigned to class and to be provided with laboratory equipment.

Students should be present on the opening day of classes and will not be admitted under any circumstances after the first ten days.

Methods of Admission *I. As a Regular Student*—Admission as a *matriculated student to the College of Arts and Sciences may be obtained by one of the following methods: (1) by certificate or diploma of graduation from an approved high school; (2) by examination; (3) by probation; (4) by transfer from another institution of higher learning.

Admission by Certificate—Admission without examination is granted to students who present certificates of fifteen acceptable units made in secondary schools accredited by any recognized standardizing agency, or by the State Board of Education, or by the State University of the state in which the high school is located.

Admission by Examination—An applicant who is not entitled to enter on certificate must take entrance examinations in the following subjects: English, History, Foreign Language, Mathematics, and Science. These examinations are held in September. Applications for these examinations should be made to the Registrar of the University at least two weeks in advance of the opening date. The fee for such examinations is \$2.00 each.

Admission by Probation—An applicant who has graduated from a four-year non-accredited high school will be admitted without examination on probation for one semester, provided

*A matriculated student is one who has fulfilled all entrance requirements, paid all fees that are due, and is pursuing regular courses leading to a degree.

the applicant, in his high school course, has completed fully the units required for admission to the University.

Admission to Advanced Standing—Advanced standing will be given, at the discretion of the Committee on Admission and Classification, to an applicant who fulfills the high school requirements for admission and who presents a transcript of credits certified by the proper official of another institution of collegiate rank showing the college work already done and giving the student an honorable dismissal. Such credits are accepted conditionally and will be validated only after the student makes satisfactory grades during his first semester.

Students applying for advanced standing should send all required credentials to the Registrar of the University at least two weeks in advance of their registration.

II. As a Special Student—Mature students who are not eligible for admission into the University by certificate or by probation may be admitted as special students under the following conditions: (1) They must be at least twenty-one years of age; (2) they must not have been in attendance in high school during the previous year; (3) they are to present all available certified credits of previous school work, together with formal application for admission as special students, stating the subject courses desired, the reasons for desiring those courses, and, when no certified credits can be presented, a detailed statement of all previous educational work and practical experience.

By virtue of his classification, a special student is not eligible for any degree. He may ultimately become a candidate for a degree by completing by entrance examinations the admission requirements of the department in which he is registered.

Registration as a special student is for one semester only. Registration for a following semester will be refused if the student has not shown satisfactory earnestness and definiteness of purpose, or if his work has not been satisfactory in the preceding semester. No one may register in the University as a special student for more than two years.

Admission Requirements Preparation qualifying for admission to university courses is expected to cover normally a period of four years in a secondary school (high school or academy). Admission credits are stated in terms of units.

A unit represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work. Two hours of laboratory work are equivalent to one hour of classroom work. Not more than four units are accepted in any one subject.

For admission to any Department of the College of Arts and Sciences at least fifteen acceptable high school units are required. In general, these units should be at least such as are required for high school graduation by the State Department of Education in the state in which the high school is located; but the following points are to be noted:

1. It is strongly advised that all students be prepared to present the following units:

	Units
English	3
Mathematics	1
Social Science	2
Latin or Modern Language.....	2
Science	1

2. Special Requirements:

For the A.B. degree:

	Units
Latin	3

For the B.S. degree:

	Units
French or German	2
Algebra	1½
Plane Geometry	1
Solid Geometry	½

3. In general, only three units will be accepted from the following group; but students who register for the B.S. in Economics may present commercial or vocational subjects up to five units.

	Units		Units
Bookkeeping	1	Economics	½ - 1
Commercial Law	½ - 1	Music	1
Commercial Geography	1	Shop Work	1
Drawing—Mechanical	1	Stenography	½
Drawing—Freehand	1	Typewriting	½

4. A student may not register for a subject course which presupposes special high school preparation, unless he has completed such preparation. His deficiency in such preparation will make it necessary for him to take those basic courses which the University judges advisable. Credit for that work may or may not be allowed, according to the circumstances of the case.

ADMINISTRATIVE PROCEDURE

The College Year Each year all classwork begins in the third week of September on the day specified in the Calendar. Instruction includes thirty-four weeks, divided into two semesters of seventeen weeks each. There is a recess at Christmas and at Easter. Instruction is suspended on legal holidays and on holy days of obligation observed in the Catholic Church.

Instruction The unit of instruction is one hour a week for one semester. Two hours of work in the laboratory are considered equivalent to one hour of recitation. Students may receive credit only for the number of hours published for a course. No credit will be allowed for a course for which a student is not regularly registered.

A student is required to take a minimum of twelve semester hours of work each semester. Laboratory periods of two hours are counted as one semester hour of work. Lower division students normally schedule sixteen semester hours each semester. Sophomores who have made an average of C in previous work may schedule, with the consent of the Dean, a slightly greater number of hours. Upper division students are expected to schedule approximately seventeen semester hours each semester. On the recommendation of his faculty adviser, an upper division student may take a slightly greater number of hours. Upper division students may not elect Freshman courses except as provided in the regulations for combined courses.

Attendance as auditors is not granted to regular students without written permission of the Dean.

Withdrawal A student withdrawing from the University during any semester before taking the final examinations of the semester forfeits all credit for work done in that semester. To obtain his honorable dismissal on withdrawing from the University, the student must obtain from the Dean a written permission for such withdrawal, which must be presented to the Registrar. This written permission will not be given if the student has not met all financial obligations to the University, or if he is under any official censure, or if there is any official charge pending against him.

A student desiring to withdraw from a scheduled course or to add another course after his semester's schedule has been filed in the Registrar's office may do so only after having obtained written permission from the Dean.

Attendance All students must attend regularly the classes and laboratories for which they have registered, also all convocations, and all assemblies of those groups of students of which they are members. They shall be charged with all absences except such as are incurred through University service or by illness or some other very grave cause. Students who are absent from class, laboratory or convocation on the day preceding or the day following any college recess or vacation will be charged with two absences for each exercise missed, unless permission has been granted previously by the Regent.

A student is excluded automatically from a subject course by four unexcused absences from the class or laboratory periods of that course during a semester. He thus forfeits his privilege of taking the semester examination in that course. Hence, he is charged with a failure in that course, and is not allowed any credit for the work done in the course during the semester.

If a student is tardy three times in the same subject course during a semester, or if he is tardy once for more than fifteen minutes, he incurs an unexcused absence.

Cases of absence due to serious illness or other extraordinary causes must be referred to the Regent within three class days after the student has returned to the University. Should he fail to do this, he will be subjected to an official sanction, which may be a required withdrawal from the University. Students who are to be absent because of University service under official appointment must notify the Regent, otherwise they will be charged with unexcused absences.

If a student withdraws from a subject course without the written permission of the Dean, or if he has been excluded from a subject course and fails to notify the Registrar of that fact, he shall pay a fine of \$2.00 and shall be given a failure grade for that course.

Excused absence does not exempt a student from quizzes, tests, examinations, or other written work required during the period of absence. The responsibility of making up work or taking omitted tests rests wholly upon the student. A failure grade for the omitted work will be charged against the student if he does not fulfill these obligations within the time limit determined by his professor.

A student who has failed to secure the Regent's permission for absence from a test or examination duly announced by the

professor shall be required to take the test or examination on the day assigned to him by the professor, after having paid the required fee of \$2.00. The maximum grade which he may receive for the test or examination is D.

Discipline The educational system of this University includes, as one of its most important features, the formation of character. It is expected that each student will be so loyal to the spirit and ideals of the University that the exercise of proper self-control will come from his own convictions and free determination.

The College rules and regulations are meant as a guide and help to foster that gentlemanly conduct which is presupposed in every Loyola student. These rules require regular and punctual attendance at all scheduled exercises, obedience to college customs and regulations, serious application to study, and blameless conduct. A student who shows himself deficient in these essential points will be suspended or dismissed.

The University reserves the right to dismiss at any time a student who fails to give satisfactory evidence of earnestness of purpose and of interest primarily in the serious work of college life. Dismissal may be made upon specific charges and, in rare cases, perhaps on grounds that seem insufficient to students and parents. The University, in these cases, holds itself to be the more capable judge of what affects the interests of the institution and the student body.

Grades and Reports A report of the semester grades made by a student in his scheduled subjects is sent to the student's parents or guardians at the end of each semester. Special reports are sent on special request.

Grades are reported as follows: A, excellent; B, very good; C, good; D, merely passing; E, conditioned; F, failed; I, work incomplete; X, absent from semester examination; W, withdrew from subject course with permission; WF, withdrew from subject course without permission, hence, a failure.

A student must earn the right to take the semester examination in each of his scheduled subjects. To do so he must have attended the required number of class and laboratory periods in the subject, he must have submitted the required term paper in that subject, and he must have made a minimum average grade of D for the semester's work in that subject prior to the semester examination. This average will be com-

puted from the grades made in the mid-semester test, the quizzes, the term paper, the laboratory work, and all other work required in that subject. A student who fails to qualify for a semester examination in a subject will be charged with a failure in that subject.

When a student, at the end of a semester, makes the passing grade of D or a higher grade, he is credited with the semester hours allowed for the subject course in which the grade is made. Otherwise, he is not credited with any semester hours.

When a student is conditioned in a subject course at the end of a semester, he may remove the condition by examination. Only one such examination is allowed, and only on the day assigned by the Dean. If the student is successful in the examination, he receives full credit of semester hours, but the highest grade allowed is D. If the student fails to remove the condition on the day assigned by the Dean, the condition becomes a failure. A student is not allowed to remove more than two conditions of one semester.

Classification Those students are ranked as Sophomores who of Students have credit for twenty-four semester hours; Juniors, those who have fifty-six semester hours; Seniors, those who have ninety-two semester hours. Students not included in any of these classifications are rated as unclassified.

Scholastic Standing A student who does not pass two-thirds of the semester hours carried in each semester will be dropped for scholastic deficiencies.

A student who fails in one-third of the semester hours carried may be placed on *probation* for the next semester if his general average of grades shows a general weakness. Students on probation carry a reduced schedule.

Eligibility Rules Students taking part in dramatic performances, public debates, oratorical or elocution contests or intercollegiate athletic contests, and those who are appointed to staffs of the University publications, as well as all officers of student organizations, are subject to the following eligibility rules:

They must be enrolled in at least twelve semester hours of work in regular or special courses; they must have passed at least twelve hours of the work in which they were enrolled for the last semester in residence; they must not be under any official censure.

Degrees The College of Arts and Sciences confers the following Baccalaureate degrees: Bachelor of Arts, Bachelor of Philosophy, Bachelor of Science with majors in Biology, Chemistry, Economics, Mathematics, Medical Technology, or Physics.

Part-Time Courses For the convenience of teachers and of others who have satisfied the requirements for college entrance, the University offers evening courses, Saturday morning courses, and summer courses. Such students schedule fewer courses per semester than are required of students attending the full-time day courses. For further details see special Bulletins for these courses. A limited number of students, who have not satisfied the regular requirements for college entrance, are permitted to take these part-time courses for cultural purposes, but they will not be given credit for such studies until proper entrance credentials have been approved and placed on file in the University.

Combined Courses A student who has completed the Junior year in the College of Arts and Sciences may enter upon his professional studies and after one year of such studies may receive a degree from the College of Arts and Sciences, provided he has fulfilled the following requirements: (1) Before transferring to the professional studies he must have completed all the subject courses of the College of Arts and Sciences specifically required for the academic degree, as the professional studies will be accepted only as electives for that degree; (2) he must have been registered during the entire year as a Senior in the College of Arts and Sciences and as a First Year student or Freshman in the professional school in which he is taking his professional studies, and his program of first year studies in the professional school must have been approved at the beginning of the session by the Dean of the College of Arts and Sciences; (3) he must have completed successfully the first year of his professional studies as required by the professional school for his promotion to the second year of professional studies in that school, although not more than twenty-two semester hours of such studies will be accepted toward his academic degree; (4) he must not be under any official censure either in the College of Arts and Sciences or in the professional school; (5) he must see that an official record of the studies which he has taken and the

grades he has made in them during his first year of professional studies, together with a statement that he has been promoted to the second year of professional studies and that he is not under any official censure in the professional school, be sent by the Dean of the professional school to the Dean of the College of Arts and Sciences.

Such a candidate for a degree from the College of Arts and Sciences must be present with the other candidates for degrees at the Baccalaureate Services and the Commencement Exercises of the University.

Requirements for Undergraduate Degrees *I. The Amount of Work*—To receive a Baccalaureate degree, a student is required to complete at least 128 semester hours, distributed normally throughout four years in such manner as to include at least 24 semester hours in his major subject, 18 semester hours in his restricted minor subject, and 18 semester hours in his unrestricted minor subject.

The Chairmen of the Departments will assist the lower division student in determining what major and minor subjects he will elect for his upper division concentration.

Before the end of his Sophomore year the student must elect his major subject in one department of one of the groups of courses listed below; his restricted minor subject in another department of the same group, except as provided below for students registered in the Department of Economics; and his unrestricted minor subject in a department of one of the other groups. Any change in a student's major or minor subjects after he has registered in the upper division will necessitate his prolonging his studies before he may receive a degree.

When a Sophomore has determined the major and minor subjects for his upper division concentration, he gives official notification of his choice to the Chairman of the Department of his major subject. The Chairman assigns to him a faculty adviser in that department who will counsel him during the years of his upper division study.

The departments of instruction are grouped as follows:

GROUP I—ENGLISH, FRENCH, GERMAN, GREEK, ITALIAN,
LATIN, SPANISH

GROUP II—COMMERCE, EDUCATION, FINANCE, HISTORY,
PHILOSOPHY, POLITICAL SCIENCE, SOCIOLOGY

GROUP III—BIOLOGY, CHEMISTRY, MATHEMATICS,
MEDICAL TECHNOLOGY, PHYSICS

Candidates for the degree of Bachelor of Arts or Bachelor of Philosophy must choose their major subject and their restricted minor subject from Group I or Group II.

Candidates for the degree of Bachelor of Science must choose their major subject and their restricted minor subject from Group III.

Students registered in the Department of Economics take Commerce and Finance as their major and minor subjects, being free to elect either of the two as their major subject. They are not required to carry an unrestricted minor subject.

II. Character of Work

Subject Requirements	A.B. ***	Ph.B. ***	B.S.	B.S. Ec.	B.S. Ed. ***
Commerce.....	---	---	---	18	---
Education.....	---	---	---	---	24
English.....	12	12	12	12	12
Finance.....	---	---	---	18	---
History.....	12	12	6	6	6
Latin.....	12	---	---	---	---
Mathematics.....	6	6	12	6	6
Modern Language.....	12	12	12	12	12
Philosophy.....	16	18	16	16	16
Religion.....	8†	8†	8†	8†	8†
Science.....	8*	8*	34**	---	8*
Sociology.....	12	12	---	---	6
Electives.....	30	40	28	32	30

N. B.—Additional semester hours must be taken in major and minor subjects. Chairmen of Departments must be consulted.

At least one-half of the work in the major subject and one-third in each of the minor subjects must be done in upper division courses.

*Elect one course in Science.

**Elect two courses in Science

†Required of all Catholic students.

***Prescribed curriculum effective for students who began their Sophomore year in the session 1937-38.

III. Quality of Work A candidate for a degree must present not only the required quantity and character of work, but he must attain a certain standard of excellence in his work, especially in his major and minor areas of concentration. Hence, the candidate for a Bachelor's degree must present, in addition to the minimum of 128 semester hours of credit, a minimum of 128 quality points, or an average grade of C or better for all subjects. Moreover, in his upper division work the student must earn in his major subject as many quality points as semester hours carried in that subject. This same quality of work is also required of him in his upper division work in his restricted minor subject, and in his upper division work in his unrestricted minor subject.

Quality points are earned in the following manner: For the grade of A in a subject course, the student is credited with *three* times as many quality points as semester hours allowed for that course; for a grade of B, *twice* as many quality points as semester hours; for the grade of C, *just as many* quality points as semester hours. For the grade of D, semester hours are credited, but no quality points.

IV. Other Requirements In addition to the above requirements, the following regulations must be observed:

(1) The candidate for a degree either must submit a thesis of approximately 5,000 words on a particular phase of his major subject, or must take a comprehensive examination in his major subject, depending upon the regulations of the department of his major subject.

(2) A. Before writing his thesis the student must obtain from the Chairman of the Department of his major subject the approval of the subject of his thesis. Not later than the first week in March in his Senior year he must present to his Chairman two copies of the completed thesis. The Chairman's approval of the thesis is required for graduation. B. If the student is to take a comprehensive examination, the field of examination is to be determined by the Chairman of the Department of his major subject. The successful completion of this examination is required for the graduation of such student.

(3) In September of the session during which the candidate expects to complete the work required for his degree, he must present to the Registrar a formal application for that degree.

(4) By May 1, the candidate must pay his graduation fee and discharge all other financial indebtedness to the University.

(5) All candidates for degrees must be present at the Baccalaureate Services and the Commencement Exercises. The University will not confer degrees *in absentia*.

Graduation Honors Graduation honors are computed according to the quality point system. The points are assigned as follows: for each semester grade of A, plus 3 points; B, plus 2; C, plus 1; D, 0; E, minus 1; F, minus 2. The average is obtained by dividing the total number of quality points earned by the total number of semester hours carried.

A candidate who has made an average of 2.5 graduates *cum laude*; one who has made an average of 2.8, *magna cum laude*; one who has made an average of 3, *maxima cum laude*. Record of these honors is inscribed on the diplomas and noted in the list of graduates published for the Commencement Exercises.

Knowledge of All the University Regulations Every student in the University is supposed to acquaint himself with all the regulations of the University pertaining either to studies or to discipline. These regulations are to be learned from the Session Bulletin, from the Students' Handbook, and from official notices posted on the official bulletin boards of the University. The University assumes that the students will acquaint themselves with all such regulations. Consequently, ignorance of a regulation will never be accepted as an excuse for its violation.

SPECIAL PROGRAMS OF STUDY

Pre-Dental Course The Dental Educational Council of America now prescribes two full years of college work for admission to the study of Dentistry. This should include college courses in English, Inorganic Chemistry, Organic Chemistry, Biology or Zoology, and Physics. These requirements are met at Loyola University by the following schedule:

First Year		
Subject		Sem. Hrs.
English Composition		6
Chemistry, Inorganic		8
General Biology		8
*Electives		8

Second Year	
Subject	Sem. Hrs.
English	6
Chemistry, Organic	8
Physics	6
*Electives	16

*Electives to be chosen from any lower division courses offered in the College of Arts and Sciences. For electives the student is urged to take more cultural subjects than scientific subjects, such as English Literature, History, Sociology, and Philosophy. All Catholic students are required to take two semester hours of Religion.

Pre-Legal Course In accordance with the standards of the Association of American Law Schools and the American Bar Association, students entering upon the study of Law must have completed one-half of the work acceptable for a Bachelor's degree granted on the basis of a four-year period of study by the State University or the principal colleges or universities in the state where the Law School is located. Moreover, the student must earn as many quality points as semester hours carried during his entire pre-legal work.

The particular program offered by the College of Arts and Sciences is the following:

First Year	
Subject	Sem. Hrs.
English	6
French	6
Science or Accountancy.....	8
History	6
Sociology or Economics.....	6
*Elective	2

Second Year	
Subject	Sem. Hrs.
English	6
French	6
History	6
Philosophy	8
Public Speaking	2
*Elective	4

*All Catholic students are required to take two semester hours of Religion.

Pre-Medical Course As most medical schools are now requiring three years of pre-medical work for admission, students are strongly urged to follow the particular program described below in preparation for the study of Medicine:

First Year	
Subject	Sem. Hrs.
General Biology	8
Chemistry, Inorganic	8
English Composition	6
French or German.....	6
Mathematics	6
*Elective	2

Second Year	
Subject	Sem. Hrs.
Biology	8
Chemistry, Organic	4
Chemistry, Quantitative	4
French or German.....	6
Physics	8
Philosophy	8
*Elective	2

Third Year	
Subject	Sem. Hrs.
English	6
Chemistry	4
Philosophy	8
History	6
Biology	8
*Elective	4

*All Catholic students are required to take two semester hours of Religion.

THE GRAND COTEAU DIVISION OF THE COLLEGE

GRAND COTEAU, LA.

Saint Charles College, situated at Grand Coteau, Louisiana, in the southwestern part of the State, is a part of the College of Arts and Sciences of Loyola University. It is the training school for the members of the New Orleans Province (Southern States) of the Society of Jesus. The collegiate studies pursued there are the first part of the educational training in the formation of a Jesuit. These four years of study are followed by three years in the School of Philosophy and Science, by a period of teaching of from three to five years, then by four years of Theology in the School of Divinity, and finally by one year devoted to higher ascetical study.

On his admission to the Jesuit Order, the student begins a period of two years of study that is largely ascetical, consequently non-academic in character. In order to keep up his intellectual interests, however, about three hours each day are

devoted to academic study, one to Latin, another to Greek, and a third to English, and vacations as well as other periods of leisure are utilized for the acquisition of modern foreign languages.

During the second period of two years, however, the student's interest is concentrated on humanistic studies. As a majority of the members of the Jesuit Order spend their entire lives in teaching or in school administration, all are required to spend from three to five years in teaching, between the period of their philosophical and that of their theological studies. The training required for such a life of classroom activity is begun in the Grand Coteau Division of the College of Arts and Sciences.

In accordance with these purposes of the school, the enrollment in this Division is limited to the members of the Jesuit Order.

Requirements The minimum entrance requirement to this **For Admission** Division is the completion of a standard high school course requiring four years of Latin. A large number of students, however, have completed at least two years of college study. Because of the differences in previous preparation, private study under the most careful individual guidance as well as a modified tutorial method are offered the student to enable him to enjoy the fullest opportunity for self-development.

Advanced Standing Students who have already secured their baccalaureate degree or who have completed a portion of their college work may complete the required studies in a shorter time than the period ordinarily prescribed. Under exceptional circumstances, the student may be required to take only courses in Education, so that he may comply with the prerequisites for teaching as demanded by law in the various states and by the prescription of the standardizing agencies.

Organization and Courses The Grand Coteau Division is administered by an Associate Dean of the College of Arts and Sciences.

The courses offered in the Grand Coteau Division are listed with the courses offered at the University in New Orleans. Since the primary purpose of the school is the education of teachers, the various systems of education in their historical development as well as in their practical effects are reviewed,

but emphasis is placed largely upon the *Ratio Studiorum*, which is the method of teaching traditional in the Jesuit Order. A secondary purpose of the school, however, is to deepen the student's appreciation and love for the classical languages, and every effort is made to develop scholarly interest in these subjects on the part of those who show special aptitude.

Examinations Examinations are held at the end of each semester. They are both oral and written, and a rigorous test is exacted in each of the subjects of study. If it should be found that a student is unable to complete the courses in a satisfactory manner within the prescribed time, he is required to add one or more years to his course before being allowed to proceed.

Forms of Bequests Gifts and bequests of money, securities, or real estate are gratefully received by Loyola University. By them many additions are made to the resources of the institution. To serve the University in this way it is not necessary to make a large bequest. There are many who, without injury to family or other interests, could bequeath \$500, \$1,000, or \$5,000. Some might bequeath much larger sums.

Unless other use is specified, those funds are allocated as a part of the permanent endowment of the University, the principal being loaned on adequate security, the income being used annually toward paying the current expenses of the University. It is advisable to ascertain the requirements of the law in the state in which the testator resides, and to be careful that such requirements are complied with.

FORM OF GENERAL BEQUEST

I hereby give and bequeath to Loyola University, New Orleans, Louisiana, for the use of said institution in fulfillment of its general corporate purpose.....

(State here the sum of money desired to be given, or, if it be the residue of an estate, state this fact.)

FORM OF BEQUEST FOR A PARTICULAR PURPOSE

I hereby give and bequeath to Loyola University, New Orleans, Louisiana, for the following purpose.....

(State clearly the special object of the bequest, as well as the sum of money or property, real or personal, constituting the same.)

DEPARTMENTS OF INSTRUCTION

The courses of instruction in all departments of the College of Arts and Sciences are numbered in accordance with the following plan:

Lower division courses, numbered from 100 to 299, are, in general, introductory and basic. Freshman courses are numbered from 100 to 199; Sophomore courses from 200 to 299.

Upper division courses are numbered from 300 to 399. For these courses, basic training in the same or in allied subjects is a prerequisite.

Courses numbered from 400 to 499 are intended for graduate students and for properly qualified undergraduate students.

Credit for courses is given in terms of semester hours.

The following is a list of the key letters used to indicate the different courses of instruction:

Biology.....	Bl	Italian.....	It
Chemistry.....	Ch	Journalism.....	Jr
Commerce.....	Cm	Latin.....	Lt
Drawing.....	Dr	Mathematics.....	Mt
Education.....	Ed	Philosophy.....	Pl
English.....	En	Physics.....	Ph
Expression.....	Ex	Physical Education.....	Ped
Finance.....	Fn	Political Science.....	Psc
French.....	Fr	Religion.....	Rl
German.....	Gr	Science.....	Sc
Greek.....	Gk	Sociology.....	Sl
History.....	Hs	Spanish.....	Sp

Course Offered at Grand Coteau Division..C
 Course Offered on Saturday Only.....E
 Course Offered in Night Classes Only.....N

DEPARTMENT OF BIOLOGY

Dr. J. G. Arnold, Jr., Chairman

Bl. 101 General Botany An introductory course designed to acquaint the student with certain broad biological principles by means of a study of living organisms. The morphology and physiology of the cell is considered. With this as a foundation, study is made of the classification, structure, function, development and relationship of typical examples of the chief plant groups. Three lectures and two laboratory periods.

5 sem. hrs.

Bl. 102 General Botany A continuation of the course Bl. 101. A study of reproduction, seeds, fruits, variations, heredity, and evolution in plants, followed by a survey of the great plant groups, and the classification of some of the common plants in Louisiana. Three lectures and two laboratory periods. Prerequisite: Bl. 101.

5 sem. hrs.

Bl. 103 General Zoology A continuation of the course Bl. 101. A comprehensive study is made of typical invertebrate and vertebrate animals. Cell division, embryology, and heredity are also considered. This course is required of Pharmacy students. Two lectures and two laboratory periods. Prerequisite: Bl. 101.

4 sem. hrs.

Bl. 104 Invertebrate Zoology A study of the underlying principles of animal life. The taxonomy, morphology, physiology, life history, habits, and distribution of the invertebrate group (Protozoa, Porifera, Coelenterata, Platyhelminthes, Nemathelminthes, Echinodermata, Annelida, Mollusca, and Arthropoda) are considered. This course is recommended for pre-medical students. Two lectures and two laboratory periods.

4 sem. hrs.

Bl. 105 Vertebrate Zoology A study of the taxonomy, morphology, physiology, life history, habits, and distribution of vertebrate animals. Reference is made to the lower chordate animals. Embryology, Genetics, and Ecology are considered briefly. This course is recommended for pre-medical students. Two lectures and two laboratory periods. Prerequisite: Bl. 104.

4 sem. hrs.

Bl. 201 Comparative Anatomy of the Vertebrates An intensive study of type forms as a preparation for human anatomy. Two lectures and two laboratory periods. Prerequisite: Bl. 104-105, or equivalent. 4 sem. hrs.

Bl. 202 General Embryology A study of the origin and maturation of germ cells, fertilization, and the formation of germ layers in certain typical invertebrate and vertebrate animals. Knowledge of the development of the systems of a vertebrate is obtained through an intensive study of the development of the chick. Two lectures and two laboratory periods. Prerequisite: Bl. 201. 4 sem. hrs.

Bl. 203 Genetics The study of similarities and differences in organisms related by descent. Chromosome theory, Mendelian inheritance, and Biometry are considered. Two lectures. Prerequisite: Bl. 101-102, or equivalent. 2 sem. hrs.

Bl. 204 History of Biology A survey of the principal figures and discoveries which have contributed to the development of the science of biology. Two lecture periods. Prerequisite: Bl. 101-102. 2 sem. hrs.

Bl. 301 Bacteriology This course embraces bacteriological technique, the classification and the study of the properties of important non-pathogenic and pathogenic bacteria. The principles of Immunity and Serology, and a brief survey of protozoal parasites and filtrable viruses are also considered. Urine, gastric, milk, and water analyses comprise this course. This course is intended for pre-medical students. Two lectures and two laboratory periods. Prerequisite: Bl. 101-103, 201-202. 4 sem. hrs.

Bl. 302 General Histology and Microscopy Histological technique, the study of microscopic structure of tissues and organs of the mammalian body, and the study of the fundamentals of blood counting. Recommended for pre-medical students. Two lectures and two laboratory periods. Prerequisite: Bl. 301. 4 sem. hrs.

Bl. 303-304 General Physiology The study of the normal function of tissues and organs of animal forms. Special emphasis is laid on the mammalian type in order better to understand human physiology. Two lectures and two laboratory periods. Prerequisite: Bl. 201. 8 sem. hrs.

Bl. 305 Animal Parasitology A study of parasites in relation to disease. The various types of parasites, their life histories, and the conditions that they cause will be considered. This course is recommended for pre-medical students and for those specializing in Biology. Two lectures and two laboratory periods. Prerequisite: Bl. 101-103, or equivalent, and Bl. 201-202. 4 sem. hrs.

Bl. 306 Animal Microtechnic A course in the principles and methods of preparing animal material for microscopical study. The student is given practice in fixing, embedding, sectioning, staining, and mounting tissues; the preparation of whole mounts. The course is required of students preparing to be laboratory technicians. It is recommended for Biology majors. One lecture or conference, and at least three laboratory periods a week. Prerequisite: Bl. 305. 4 sem. hrs.

Bl. 307-308 Industrial Bacteriology A course to familiarize the student with the principles of Bacteriology, Mycology, and Protozoology in relation to the various industries. Two lectures and two laboratory periods. Prerequisite: Three years of Chemistry and one year of Biology. 8 sem. hrs.

Bl. 310 Pothier Seminar The seminar is composed of the staff and of students majoring in Biology, as well as others interested in the subject. The work of the seminar consists in the reading and discussion of papers on biological subjects by the members, and lectures by visiting scientists.
Credit determined by work done.

Bl. 400 Biological Problems This is a course to allow the student to carry advanced biological work under faculty supervision. For students preparing to be laboratory technicians this course will include a definite period of hospital training. This course is open to Seniors. Prerequisite: Three years of Biology. Credit determined by work done.

DEPARTMENT OF CHEMISTRY

Rev. G. A. Francis, S.J., Chairman

Ch. 101-102 General Inorganic Fundamental principles of Chemistry; the laws of chemical action and description of the non-metallic and metallic elements and their compounds. Three lectures and two laboratory periods. 10 sem. hrs.

Ch. 201-202 Organic Chemistry Discussion of the important compounds of aliphatic and aromatic series and preparation of typical compounds. Two lectures and two laboratory periods. 8 sem. hrs.

Ch. 301 Inorganic Qualitative Analysis Detection of the common cations and anions, based on the application of chemical principles. One lecture and three laboratory periods. 4 sem. hrs.

Ch. 302 Inorganic Quantitative Analysis Gravimetric and volumetric methods of analysis. One lecture and three laboratory periods. 4 sem. hrs.

Ch. 303-304 Physical Chemistry A general survey of the subject. Treatment of the laws of chemical phenomena—the gaseous, liquid, and solid states of matter. The course treats of thermo-chemistry, laws governing chemical changes, and electro-chemistry. Two lectures and two laboratory periods. 8 sem. hrs.

Ch. 305-306 Industrial Chemistry A study of the more important chemical industries. The course deals with production of petroleum products; animal and vegetable oils and fats; sugar; water for municipalities and for industrial uses; paints, varnishes, lacquers, synthetic plastics; industrial alcohol, etc. Two lecture periods. 4 sem. hrs.

Ch. 307-308 Technical Methods of Analysis Analysis of the substances discussed in Ch. 305-306. Three laboratory periods. 6 sem. hrs.

Ch. 309-310 Elementary Biological Chemistry. A study of the chemical constituents of the body. The chemistry and functions of the carbohydrates, fats, proteins, vitamins, and mineral elements of foods. One lecture and one laboratory period. 4 sem. hrs.

DEPARTMENT OF CLASSICAL LANGUAGES

Rev. R. M. Brooks, S.J., Chairman

A. Latin

Lt. 001-002C Latin Composition. Thorough review of the principles of syntax, intended to lead to proficiency in the idiomatic translation of selected passages from English authors. The semester hours credit are allowed toward graduation, but not toward the fulfillment of the language requirement. 4 sem. hrs.

Lt. 003C Ecclesiastical Latin Selections from the Latin Vulgate, the Liturgy, from early and medieval writers.

3 sem. hrs.

Lt. 101 Cicero One of these four Orations: Pro Archia, De Signis, Pro Marcello, Pro Ligario. Rapid review of syntax.

3 sem. hrs.

Lt. 102 Horace Ars Poetica, selected Odes and Epodes; principles of versification.

3 sem. hrs.

Lt. 103 Virgil Literary study of the Aenied.

3 sem. hrs.

Lt. 104C Livy Books 21 and 22.

3 sem. hrs.

Lt. 105C Horace and Ovid Epodes and Ars Poetica; selections from Ovid.

3 sem. hrs.

Lt. 106 Latin Composition Advanced composition based on Bradley's Arnold.

2 sem. hrs.

Lt. 201 Cicero A study of the principles of the art of literary expression as illustrated and exemplified by the Pro Milone, Pro lege Manilia, or the Second Philippic.

3 sem. hrs.

Lt. 202 Horace Literary study of the Satires and Epistles.

3 sem. hrs.

Lt. 203 Virgil Literary study of the Aenied. A continuation of Lt. 103.

3 sem. hrs.

Lt. 203C Virgil A literary study of the Eclogues and Georgics.

2 sem. hrs.

Lt. 204C Tacitus A literary study of the Germania and Agricola.

2 sem. hrs.

Lt. 205C Latin Literature A survey of Latin literature from its beginning to the end of the Golden Age; select readings from all the classical authors.

2 sem. hrs.

Lt. 206 Latin Composition Advanced composition. A continuation of Lt. 106.

2 sem. hrs.

Lt. 301 Cicero A study of his letters and non-oratorical prose works.

3 sem. hrs.

Lt. 302 Horace A study of his philosophy as embodied in the Satires and Epistles.

3 sem. hrs.

- Lt. 303 Virgil** A literary study of the Aenied. A continuation of Lt. 203. 3 sem. hrs.
- Lt. 304 Catullus and the Minor Poets** A comparative literary study. 3 sem. hrs.
- Lt. 305 Latin Dramatic Poetry** Platus and Terence. 3 sem. hrs.
- Lt. 306 Latin Composition** Advanced composition. A continuation of Lt. 206. 4 sem. hrs.
- Lt. 307 Latin Satire.** 3 sem. hrs.
- Lt. 308 Lucretius** A study of De Rerum Natura. 3 sem. hrs.
- Lt. 309 Minor Epic Poets** A comparative literary study. 3 sem. hrs.
- Lt. 310 Ovid** A literary study of the Metamorphoses and his minor poems. 3 sem. hrs.
- Lt. 311 Post-classical and Medieval Latin.** 3 sem. hrs.

B. Greek

- Gk. 001-002C** A course for those who enter college without high school Greek. Etymology, syntax, St. Luke's Gospel. The semester hours credit are allowed toward graduation, but not toward the fulfillment of the language requirement. 6 sem. hrs.
- Gk. 101 Xenophon** Selections from the Anabasis. Study of historical and literary background; syntax of the moods and tenses reviewed. 3 sem. hrs.
- Gk. 101C Xenophon** Selections from the Anabasis. Study of historical and literary background; syntax of the moods and tenses reviewed; composition based on selections studied. 3 sem. hrs.
- Gk. 102 Homer** Selections from the Iliad and Odyssey. Dialects; outline of Greek Epic Poetry. 3 sem. hrs.
- Gk. 102C Homer** Selections from the Iliad and Odyssey. Dialects; outline of Greek Epic Poetry; composition based on selections studied. 3 sem. hrs.
- Gk. 105C Introductory Greek Composition** Practice in writing simple Greek. 2 sem. hrs.

Gk. 203C Lysias-Plato. Lysias, Selected Speeches; Plato's Apology and Crito. 3 sem. hrs.

Gk. 204C Chrysostom-Demosthenes St. John Chrysostom, In Eutropium; Demosthenes, Selected Speeches. 3 sem. hrs.

Gk. 205 Demosthenes De Corona. Analysis of oratorical structure and style; study of the historical issues. 3 sem. hrs.

Gk. 205C Demosthenes-Basil Demosthenes, De Corona; St. Basil, On Pagan Literature; lectures on Greek oratory. 3 sem. hrs.

Gk. 209C Advanced Greek Composition A continuation of Gk. 105C. 2 sem. hrs.

Gk. 301 Sophocles Oedipus Tyrannus. Translation, dramatic analysis, and scansion. 3 sem. hrs.

Gk. 301C Sophocles-Euripides Sophocles, Antigone; Euripides, Hecuba. Lectures on Greek drama. 3 sem. hrs.

Gk. 303C Thucydides The Sicilian Expedition. Lectures on Greek historiography. 3 sem. hrs.

Gk. 304C Xenophon-Herodotus Xenophon, Cyropaedia; Herodotus, Histories. Methods of the two authors compared. 3 sem. hrs.

DEPARTMENT OF ECONOMICS

Dr. J. V. Connor, Chairman

Program of Majors Both the major and restricted minor are to be taken from this department by students seeking the Bachelor of Science degree in Economics. The major may be taken in either Commerce or Finance. When one group of courses is selected for the major, the other group automatically becomes the restricted minor.

DESCRIPTION OF COURSES

A. Commerce

Cm. 101-102 Economic History of United States The outstanding industrial, agricultural and financial factors in United States development; colonization and the English colonial policy; the evolution of American economic institutions; currency and banking; transportation; the westward

movement; population and labor; Southern economy; plantations, slavery, and cotton; tariff policy; private and public finance; agriculture and natural resources; conservation; emergence of United States as a world power. Offered every year. 6 sem. hrs.

Cm. 103-104 Elementary Principles of Business Basic factors in the organization, operation, and control of business; types of business units; buying and selling; accounting; forecasting; traffic management; insurance; banks and bank credit. Offered at night only. 4 sem. hrs.

Cm. 201-202 Principles of Economics Characteristics of modern economic society; economic structures and functions; production; consumption; value and prices; supply and demand; monetary systems; credit and banking; business organization; nature and scope of monopoly and trusts; distribution; an elementary survey of major economic problems. Offered every year. 6 sem. hrs.

Cm. 301 Marketing Principles of marketing; middlemen and marketing functions; organized exchanges; cooperatives; trade associations; market analyses; public regulation; assigned problems in collecting and interpreting data; collateral readings. Offered every year, first semester. 3 sem. hrs.

Cm. 302 Merchandising Principles of merchandising; types of retail outlets; chain, independent, department, and mail order; retail operating methods and policies; location, purchasing, records, selling, and stock turnover. Readings and problems assigned. Offered every year, second semester. 3 sem. hrs.

Cm. 303-304 Business English Principles of business correspondence; emphasis on structure and content of different types of letters; business reports. Practice writing on assigned problems. Offered every year. 4 sem. hrs.

Cm. 305-306 Commercial Law Fundamental ideas of law in general; business forms; contracts; agency; negotiable instruments; sales; personal property; partnerships and corporations; real property; insurance; suretyship; mortgages; bankruptcy; banking law. Offered every year. 6 sem. hrs.

Cm. 307 Salesmanship Relation of selling to advertising; motives for buying and analyses of customer habits; suggestions and personality; sales demonstrations. Practical observations in the field. Offered every year, first semester.

3 sem. hrs.

Cm. 308 Advertising Fundamental principles of advertising; layouts and writing of copy; advertising agencies and media; advertising forms; psychology in advertising. Practical observations. Offered every year, second semester.

3 sem. hrs.

Cm. 309-310 Latin-American Markets A study of the history and economic development of the Latin-American republics; a discussion of our commercial relations; economic problems of each country; possibilities of United States trade expansion to Central and South America. Not offered in 1938-1939.

4 sem. hrs.

Cm. 311-312 Advanced economic problems; major economic problems; financial organization of business; public finance; business cycle control; transportation; foreign trade; land problems; labor problems; national welfare and economic security; economic reform and reorganization. Offered every year.

4 sem. hrs.

Cm. 313-314 Inland Transportation Evolution of transportation; facilities of transportation; railways, waterways, highways, and airways; transport economics; principles of classification and rate making; public control and legislation; recent problems. Not offered in 1938-1939.

4 sem. hrs.

Cm. 318-319 Foreign Trade Principles and practices of foreign trade; mechanics of importing and exporting; financing of foreign trade; international banking functions; tariff policies; recent development. Not offered in 1938-1939.

4 sem. hrs.

B. Finance

Fn. 101-102 Accounting I Elements of double entry book-keeping; single proprietorship; partnership; corporation; opening and closing books; intensive drill on working papers; good-will; focal date; funds; bonds; discounting of notes. Laboratory drill. Offered every year.

8 sem. hrs.

Fn. 103 Business Mathematics I Commercial algebra; simple and quadratic equations; logarithms; interest and discount; graphs and statistical methods. Problem drill. Offered every year, first semester. 3 sem. hrs.

Fn. 104 Business Mathematics II Compound interest and compound discount; annuities and sinking funds; depreciation; insurance. Problem drill. Offered every year, second semester. 3 sem. hrs.

Fn. 201-202 Intermediate Accounting The first part of this course consists of the study of accounting problems peculiar to the corporate form of organization. The second part is devoted to the valuation and special problems of assets and liabilities. The third part is devoted to the preparation and analysis of accounting statements. Two lectures and two laboratory periods weekly. Prerequisite: Fn. 101-102. Offered every year. 8 sem. hrs.

Fn. 301-302 Advanced Accounting This course is devoted to the study of advanced accounting problems pertaining to partnerships, receiver's operations and statements, foreign exchange, estate accounting, and consolidated balance sheets and income statements. Prerequisite: Fn. 201-202. Offered every year. 6 sem. hrs.

Fn. 303 Federal Tax Accounting This course is devoted to the study of the income tax provisions of the current revenue act and regulations of the Treasury Department from an accounting standpoint. Problems assigned include the preparation of individual and corporation tax returns. Prerequisite: Fn. 201-202. Offered every year, first semester. 3 sem. hrs.

Fn. 304 Cost Accounting The subject-matter of this course is confined to industrial cost accounting. Particular attention is given to the methods of allocation of indirect expenses to departments, processes, jobs, and classes of product. The principles of cost accounting are illustrated in a complete set which the student is required to work out. Prerequisite: Fn. 201-202. Offered every year, second semester. 3 sem. hrs.

Fn. 305-306 Money and Banking Definition and functions of money; monetary development in the United States; recent developments; nature, functions, and instruments of credit; developments in United States banking; recent changes; commercial, investment, agricultural and consumer credit facilities. Offered every year. 6 sem. hrs.

Fn. 307-308 Corporation Finance Forms of business enterprise; promoters; conditions and laws of incorporation; underwriting; working capital; distribution of dividends; financial plan for operation; failure and reorganization; relations of shareholders, creditors, and the general public to the corporation. Offered every year. 6 sem. hrs.

Fn. 311-312 Business Statistics Collections, analysis, and presentation of statistical data; barometers of business in forecasting; plotting of graphs for executing control. Offered every year. 4 sem. hrs.

Fn. 317-318 Public Finance Types of public revenues; types of public expenditures; forms of taxes; principles of taxation; public credit; war financing; depression financing; budgets; financial administration. Not offered in 1938-1939.

6 sem. hrs.

Fn. 321-322 C. P. A. Problems This course is designed for students who expect to enter the field of public accounting. It includes a consideration of auditing procedure, but the major part of the work consists of problems designed to furnish preparation for the C. P. A. examinations. Prerequisite: Fn. 301-302. Offered at night only.

6 sem. hrs.

DEPARTMENT OF EDUCATION AND PHYSICAL EDUCATION

Rev. J. F. Whelan, S.J., Chairman

A. Courses in Education

Ed. 148 Distributive Education State and federal laws governing the use of funds; analysis of types of training necessary; contents of various courses and methods of teaching these courses. First semester, 1938-1939. 2 sem. hrs.

Ed. 301 The School and Society A core course in education that continues throughout the entire scholastic year. In this course the philosophy of education is discussed in the light of its various phases and implications. The principles and organization of elementary, secondary, and higher education are treated critically in terms of the needs of the pupil and society. Recent trends in the development of the curriculum, supervision and administration are likewise studied in terms of their contribution to the individual and to society. This course is required of all students offering a major or minor in Education. First semester, 1938-1939. 4 sem. hrs.

Ed. 302 The School and Society (Continued) A continuation of Ed. 301. Education and guidance; democracy and education; national systems of education; education and the totalitarian state. This course is required of all students offering a major or minor in Education. Second semester, 1938-1939.

4 sem. hrs.

Ed. 307—Philosophy of Education The philosophies of naturalism, socialism, and nationalism, and the systems of education to which each of these philosophies gave rise. This course then examines the attitude of the more conservative philosophers and educators toward naturalism, socialism, and nationalism. First semester, 1938-1939.

3 sem. hrs.

Ed. 310 History of Education The historical foundations of modern education; the aims and methods of education in our western civilization. Second semester, 1938-1939.

3 sem hrs.

Ed. 315 History of American Education Colonial beginnings, development of the elementary school, academy, and high school are treated in the light of the democratic and industrial development of the country; the expansion of higher education and recent developments in higher and secondary education are treated in connection with the normal growth of a democratic society. Second semester, 1937-1938.

2 sem. hrs.

Ed. 321 Principles of Elementary Education The elementary school curriculum and curriculum making; progressive trends in elementary education; the supervision of elementary education; the administration of elementary education. First semester, 1937-1938.

2 sem. hrs.

Ed. 322 Principles of Secondary Education The secondary school curriculum and curriculum making; progressive trends in secondary education; the supervision of secondary education; the administration of secondary education. Summer Session, 1938.

2 sem hrs.

Ed. 326 Progressive Trends in Education The aims and the objectives of progressive education and a review of the more recent literature. Summer Session, 1938.

2 sem. hrs.

Ed. 327 Library Science for Teachers An orientation and service course in the use of the library. The purpose of the course is to train the student in the use of library material

and to integrate the library with the instructional program. Lectures, problems, and discussion. Summer Session, 1938.

2 sem. hrs.

Ed. 331 Child Psychology The facts of child conduct with special reference to the meaning of these facts to the teacher. Summer Session, 1938.

2 sem hrs.

Ed. 333 Educational Psychology A study of the educand with emphasis upon the learning implications. First semester, 1938-1939.

3 sem. hrs.

Ed. 334 Mental Hygiene A study of the origin of the nervous diseases in childhood; phobias, compulsions, and obsessions; desirable emotional control; the endocrines and mental health; a program of mental health for children, for adolescents, for adults; religion and mental health; mental hygiene in the school. First semester, 1937-1938.

2 sem. hrs.

Ed. 336 Evaluation and Statistics in Education The place of evaluation in an educational program; critical discussion of instruments of evaluation in terms of the objectives of education; the administration and use of intelligence tests, aptitude tests, achievement tests, prognostic tests. Second semester, 1938-1939.

3 sem. hrs.

Ed. 341 Teaching Nature Study and Science in the Elementary School The offerings of nature study and science toward the unification of the curriculum. Second semester, 1937-1938.

2 sem. hrs.

Ed. 342 Teaching Music and Art in the Elementary School The psychological basis of appreciation; stories of the composers and artists; incidences which prompted the compositions; the correlation of music with art; and the contribution of music and art to the curriculum. Summer, 1938.

2 sem. hrs.

Ed. 345 Visual and Audio Aids in Education A course designed to show the possibilities and the advantages of excursions, school museums, stereoscopes, projecting machines, film strips, moving pictures, and the radio in teaching the various subjects of the curriculum. Summer, 1938.

2 sem. hrs.

Ed. 346 Vocational Education A brief history of industrial conditions in England and the United States; industrial developments in the United States and the consequent demand

for education of industrial workers; vocational education under federal and state laws; local administration of vocational education. First and second semesters, 1938-1939.

2 sem. hrs.

Ed. 347 New Trends in Vocational Education A study of changes in industry necessitating revision of the curriculum to meet new conditions; diversified occupations. Second semester, 1938-1939.

2 sem. hrs.

Ed. 350 Practice Teaching This course offers to prospective teachers a *cadetship* in teaching under the direction of an approved and experienced teacher. The work of the course consists in observation of the critic teacher; actual teaching under the direction and observation of the critic teacher; and conferences with the critic teacher, the school principal, and the instructor of the course. Students registering in this course must have an average of 1.25 quality points in the teaching field, together with at least six semester hours in education, before they will be allowed to teach any subject. This course must include at least sixty clock hours of actual teaching while being observed by the critic teacher. Records of at least twelve conferences with the critic teacher must be presented to the instructor of the course.

4 sem. hrs.

Ed. 399 Thesis.

Credit to be arranged.

B. Courses in Physical Education

Ped. 170 Introduction to Physical Education A survey of the more important phases of physical education in the light of recent educational theories.

2 sem. hrs.

Ped. 171-172 Principles, Organization, and Administration of Health and Physical Education This course is intended for students majoring or minoring in Physical Education. The materials of the course are treated from the point of view of the teacher of Health and Physical Education.

4 sem. hrs.

Ped. 173 Principles, Organization and Administration of Health and Physical Education This course is designed for classroom teachers. The purpose is to bring out, in its proper perspective, health as an objective of education.

2 sem. hrs.

Ped. 175 Health and Safety Education The place and contribution of the school in the program of health and safety for an entire community. The teaching of safety, health, and school health programs. 2 sem. hrs.

Ped. 181 Theory and Practice of Physical Education for Men
A fundamental course in football and basketball. 3 sem. hrs.

Ped. 182 Theory and Practice of Physical Education for Men
Athletic coaching in intramural and interscholastic athletics: football, volleyball, basketball. 2 sem. hrs.

Ped. 183 Theory and Practice of Physical Education for Men
A fundamental course in baseball and other summer sports. 3 sem. hrs.

Ped. 184 Theory and Practice of Physical Education for Men
Athletic coaching in intramural and interscholastic athletics: baseball, boxing, track, tennis, golf. 2 sem. hrs.

Ped. 185 Theory and Practice of Physical Education for Men
A fundamental course in boxing and track. 3 sem. hrs.

Ped. 186 First Aid Practical lectures and demonstrations of typical situations to give the student an understanding of some of the fundamental techniques useful in situations of emergency. 1 sem. hr.

Ped. 187 Theory and Practice of Physical Education Activities other than athletics suitable for younger children in the elementary school. These activities include games of low organization, stunts, apparatus, tumbling, swimming, elementary school activities, and rhythmic. 2 sem. hrs.

Ped. 281 Theory and Practice of Physical Education for Men
A study of the theory, strategy, and mechanics of football and basketball. Prerequisite: Ped. 181. 3 sem. hrs.

Ped. 283 Theory and Practice of Physical Education for Men
A study of the theory, strategy, and mechanics of baseball and other summer sports. Prerequisite: Ped. 183. 3 sem. hrs.

Ped. 285 Theory and Practice of Physical Education for Men
Advanced work in boxing and track. Prerequisite: Ped. 185. 3 sem. hrs.

Ped. 286 Treatment of Athletic Injuries Practical lectures and demonstrations typical of situations of injuries that arise in connection with athletic events; the diagnosis and emergency treatment of such injuries. 1 sem. hr.

Ped. 287 Theory and Practice of Physical Education Activities, including athletics, suitable for older children in the elementary school. These activities include games, stunts, apparatus, tumbling, swimming, and rhythmic. 2 sem. hrs.

Ped. 289—Theory and Practice of Physical Education for Women Athletic coaching in intramural and interscholastic athletics, volleyball, basketball, indoor baseball, tennis, and hitpin ball. 2 sem. hrs.

Ped. 381 Theory and Practice of Physical Education for Men A continuation of Ped. 281. Prerequisite: Ped. 281. 3 sem. hrs.

Ped. 382 Principles of Coaching: Football and Basketball Principles of strategy, organization, and administration in the coaching of football and basketball. Prerequisite: Ped. 381. 3 sem. hrs.

Ped. 383 Theory and Practice of Physical Education for Men A continuation of Ped. 283. Prerequisite: Ped. 283. 3 sem. hrs.

Ped. 384 Principles of Coaching: Baseball Principles of strategy, organization, and administration in the coaching of baseball. Prerequisite: Ped. 383. 3 sem. hrs.

Ped. 385 Theory and Practice of Physical Education for Men A continuation of Ped. 285. Prerequisite: Ped. 285. 3 sem. hrs.

Ped. 386 Principles of Coaching: Boxing and Track Principles concerned with the selection and training for boxing and track; organization and management of boxing and track teams. Prerequisite: Ped. 385. 3 sem. hrs.

Ped. 387 Theory and Practice of Physical Education Tap, character, and soft-shoe dances. Dances that could be used for special school programs. 2 sem. hrs.

Pl. 204 Cosmology The origin of the world; Monism; Pantheism; Materialism; creation: formation and finality of the world; the constructive properties of bodies; Atomism; Dynamism; Hylomorphism; substantial changes; the laws of nature; miracles: definition, possibility, cognoscibility. Offered every year. 2 sem. hrs.

Pl. 301 Psychology Life in general: empirical observation of vital action; the power of self-motion; purposive activity; immanency of action; scholastic concept of life; the three es-

sententially different grades of life; the prime principle of life; the theory of evolution; a study of the human soul; refutation of false theories on the *Ego* advocated by Kant, Hume, Mill, and James; refutation of various monistic theories about the psycho-physical activities of man; refutation of anthropologic evolution. Offered every year. 2 sem. hrs.

Pl. 303 Psychology Definition and scope; mental faculties; the external senses; the internal senses; impulses and desires; reflex action; the faculty of thought; the faculty of choice; feelings and emotions; habit; character. Offered every year. 3 sem. hrs.

Pl. 304 Psychology The nature of the soul; the origin of the soul; the immortality of the soul; union of soul and body; the abnormal mind; the subconscious; mental influence on physical functions; the psychology of learning; applied psychology. Offered every year. 3 sem. hrs.

Pl. 308 Theodicy Atheism, Agnosticism, Pantheism, Deism, Theism; the existence of God; refutation of Descartes, Leibnitz, Kant, and Traditionalists; the essence of God; the divine attributes; God and the world; the materialistic and pantheistic concept of God. Offered every year. 2 sem. hrs.

Pl. 311-312 Ethics Definition, nature, object, and necessity of ethics; subjective and objective ultimate end of man; human action, its merit and imputability; norm of morality, true and false; man's duty to his Creator; man's duty to himself; man's duty to his neighbor; duties to property; society: domestic, civil, international, religious. Offered every year. 4 sem. hrs.

Pl. 314 History of Philosophy: Ancient Study of pre-Hellenic, Greek, Greco-Roman, and Greco-Oriental philosophy to the Christian era. Summer, 1938. 2 sem. hrs.

Pl. 315 History of Philosophy: Scholasticism A study of patristic and scholastic philosophy from the beginning of the Christian era to A. D. 1450. Offered in 1937-1938. 2 sem. hrs.

Pl. 316 History of Philosophy: Early Modern Transition from scholastic to the modern philosophy; a study of philosophic thought from Francis Bacon to Kant. Offered in 1938-1939. 2 sem. hrs.

Pl. 317 History of Philosophy: Late Modern Study of philosophic thought from Kant through the eighteenth century, and of present day tendencies in philosophy. Offered in 1938-1939. 2 sem. hrs.

DEPARTMENT OF PHYSICS AND MATHEMATICS

Rev. K. A. Maring, S.J., Chairman

A. Physics

Ph. 201-202 General Physics This course in the principles of General Physics is designed for students majoring in science and also for students preparing for medicine or engineering. It is intended to impart a thorough grounding in the underlying principles of mechanics, heat, sound, light, and electricity. Three lectures and two laboratory periods. Prerequisite: Mt. 101 or 103. Offered every year. 10 sem. hrs.

Ph. 201-202N General Physics Prerequisite and general content of course same as Ph. 201-202. Two lectures and two laboratory periods. Prerequisite: Mt. 102 or 103. Offered every year. 8 sem. hrs.

Ph. 201-202E General Physics This course is designed for students not majoring in science nor preparing for medicine or engineering, but for those who desire a general knowledge of the fundamental principles of physics toward an understanding of the physical happenings of everyday life. It is intended also to satisfy the science requirement of the Ph.B. degree. Two lectures and one laboratory period. Prerequisite: Mt. 101. Offered every year. 6 sem. hrs.

Ph. 201-202D General Physics This is a demonstration lecture course designed to meet the requirements of the American Association of Dental Colleges. It embraces the fundamental principles underlying mechanics, heat, sound, light, and electricity, emphasizing especially problems peculiar to dentists. Prerequisite: Mt. 101. Three lectures each week. Offered every year. 6 sem. hrs.

Ph. 301-302 Electricity and Magnetism This course is intended to give the student a thorough grasp on the principles of static electricity, direct and alternating currents, and the fundamentals of electronics. Prerequisite: Ph. 201-202, Mt. 301-302. Three lectures each week. Offered every year. 6 sem. hrs.

Ph. 303-304 Electrical Measurements A laboratory course to accompany Ph. 301-302. Various methods of measuring the more important electrical and magnetic quantities are given, as well as instruction in the use of standard commercial measuring apparatus. Two laboratory periods each week. Offered every year. 4 sem. hrs.

Ph. 307-308 Analytical Mechanics A study of the composition and resolution of forces acting on a particle; forces acting on a rigid body; the statics of a rigid body; the center of gravity; friction; flexible cords; the kinetics of a particle; the motion of a particle in a plane curve; work and energy; constrained motion; the moment of inertia; kinetic friction. Prerequisite: Same as for Ph. 301-302. Three lectures each week. Offered every year. 6 sem. hrs.

Ph. 311 Optics The fundamental principles of geometrical and physical optics, with an introduction to modern theories of radiation. Prerequisite: Same as for Ph. 301-302. Three lectures each week. Offered in 1938-1939. 3 sem. hrs.

Ph. 312 Optical Measurements This is an advanced laboratory course to accompany Ph. 311. It includes measurements on the index of refraction, spectrometry (visible spectrum), focal length of converging lenses and lens systems, lens aberrations, interference, photometry, polarized light. Two laboratory periods each week. Offered in 1938-1939. 2 sem. hrs.

Ph. 315 Heat and Thermodynamics First and second law of thermodynamics, with special application to the problems of chemistry. Prerequisite: Same as for Ph. 301-302. Three lectures each week. Offered in 1937-1938. 3 sem. hrs.

Ph. 316 A Laboratory Course in Heat This course is intended as a laboratory course to accompany Ph. 315. Two laboratory periods each week. Offered in 1937-1938. 2 sem. hrs.

Ph. 319 Sound The dynamics of vibrating bodies; transmission of sound; architectural acoustics, loud speakers, and microphones; supersonics; characteristics of speech and hearing. Prerequisite: Same as for Ph. 301-302. Three lectures each week. To be offered in 1939-1940. 3 sem. hrs.

Ph. 320 Laboratory Work in Sound Designed to illustrate by experiment the principles of Ph. 319. Two laboratory periods each week. To be offered in 1939-1940. 2 sem. hrs.

Ph. 331-332 Modern Physics This course is designed to acquaint the student with the modern views on atomic physics, radiant energy, atomic spectra and spectral series, as well as the more significant of modern advances in the non-atomic field. Prerequisite Mt. 310. Three lectures each week. To be offered in 1939-1940. 6 sem. hrs.

Ph. 335-336 Electronics and Radio Physics The electron and its properties; thermionic and photo-electric emission; radio transmission and receiving circuits and apparatus. Prerequisite: Ph. 301-302, Mt. 310. Three lectures each week. Offered in 1937-1938. 6 sem. hrs.

Ph. 337-338 Practical Electronics and Radio Physics A laboratory course designed to accompany and illustrate Ph. 335-336. Two laboratory periods each week. Offered in 1937-1938. 4 sem. hrs.

B. Drawing

Dr. 101-102 Elementary Mechanical Drawing Lettering; applied geometry; orthographic projections; auxiliary views; revolutions; isometric and oblique projections; developments. Offered every year. 6 sem. hrs.

Dr. 201 Descriptive Geometry Orthographic drawing; auxiliary views; point-line-plane problems; revolution; concurrent non-coplanar forces; curved lines and surfaces; practice and drafting-room problems. Offered every year. 3 sem. hrs.

Dr. 202 Machine Drawing Piping, detailing, and general working drawings. Offered every year. 3 sem. hrs.

C. Mathematics

Mt. 101 College Algebra Fundamental algebraic operations: addition, subtraction, multiplication, division, factoring, equations; theory of equations. This course fulfills the Algebra requirement for all students except those who elect their major in Mathematics or Chemistry or Physics, and those who elect a minor in Mathematics. Offered every year. 3 sem. hrs.

Mt. 103 College Algebra Logarithms; slide rule; simultaneous quantities; theory of equations; combinations and permutations; mathematical induction; binomial theorem; determinants; progressions; infinite series; partial fractions. Offered every year. 3 sem. hrs.

Mt. 105 Plane Trigonometry Trigonometric functions of acute angles; use of the table of natural functions; the right triangle; trigonometric functions of any angle; functions of the sum or the difference of two angles; the oblique triangle; graphs of functions; trigonometric identities and equations; applications of trigonometry to algebra. Offered every year.

3 sem. hrs.

Mt. 203 Plane Analytic Geometry Different systems of coordinates; point; straight line; conics; transformation of coordinates; higher plane curves. Prerequisite: Mt. 103. Offered every year.

3 sem. hrs.

Mt. 206 Elementary Surveying General methods used in measurement of distances, angles, difference of elevation and area; practical use of the chain, tape, level, compass, and transit; solution of simple problems in surveying. Prerequisite: Mt. 103. Offered every year.

3 sem. hrs.

Mt. 210 Spherical Trigonometry The right spherical triangle; the oblique spherical triangle. Applications. Prerequisite: Mt. 105. To be offered in 1939-1940.

3 sem. hrs.

Mt. 301 Differential Calculus Functions; limits; derivatives; successive derivatives; maxima and minima; roots; differentials; curvature; theorem of mean value; indeterminate forms. Prerequisite: Mt. 203. Offered every year.

3 sem. hrs.

Mt. 302 Integral Calculus Integration by all methods; evaluation of the constant of integration; the definite integral; the fundamental theorem of Integral Calculus; series; multiple integrals. Prerequisite: Mt. 203. Offered every year.

3 sem. hrs.

Mt. 310 Differential Equations Equations of the first order and first degree; equations of the first order but of higher degree; linear equations of a higher order with constant coefficients; total differential equations; simultaneous equations; homogeneous linear equations; equations of higher order and higher degree; integration of series. Prerequisite: Mt. 302. Offered every year.

3 sem. hrs.

Mt. 312 Theory of Equations Descartes' rules; Sturm's theorem; Lagrange's and Newton's methods of solution of equations; solution of equations by radicals; Cardan's formula;

Vandermonde's principle; graphical solution of equations; introduction to theory of groups. Prerequisite: Mt. 103, 105, 301. To be offered in 1939-1940. 3 sem. hrs.

Mt. 316 Vector Analysis Addition, multiplication, differentiation, and integration of vector quantities. Prerequisite: Mt. 302. To be offered in 1939-1940. 3 sem. hrs.

Mt. 318 Solid Analytic Geometry Determinants; matrices; systems of coordinates; the point; the line; the plane; rotation of axes; tangent and normal planes and lines; quadratic surfaces; invariants. Prerequisite: Mt. 203. To be offered in 1940-1941. 3 sem. hrs.

Mt. 320-321 Elementary Mathematical Statistics Histograms; the statistical constants; the normal law; trends; method of least squares; correlation and regression. Prerequisite: Mt. 301, 302. Offered in 1937-1938. 6 sem. hrs.

Mt. 401-402 Advanced Calculus A course in Advanced Calculus, based on Osgood's Advanced Calculus. Offered in 1938-1939. 6 sem. hrs.

DEPARTMENT OF RELIGION

Rev. E. T. Cassidy, S.J., Chairman

Rl. 101-102 The Moral Ideal The great Commandment; charity and the works of mercy; human life and modern conditions; modern industrial problems; social justice; citizenship; the moral law. Offered every year. 2 sem. hrs.

Rl. 201-202 Dogma and the Commandments The future life; man's origin, elevation, fall, and redemption; the Commandments; revelation, faith, and life. Offered every year. 2 sem. hrs.

Rl. 301-302 The Church and the Scriptures The Church: its laws and policies, its teachings and functions; the question of miracles; the credentials of the Church; the Church and the modern state. Offered in 1937-1938. 2 sem. hrs.

Rl. 305-306 Life Problems The practice of broad-mindedness; life motives; choosing a life work and a life mate; the part of parents; the use of leisure; special questions. Offered in 1938-1939. 2 sem. hrs.

Rl. 313-314 Liturgy An interpretive study of the Liturgy of the Church. Not offered in 1938-1939. 2 sem. hrs.

RL. 317-318 Exegesis An exegetical study of the New Testament. Not offered in 1938-1939. 2 sem. hrs.

DEPARTMENT OF SOCIOLOGY

Dr. A. T. Donohue, Chairman

Sl. 101 Introductory Sociology Social principles; sociology and related sciences; postulates of sociology; man's dignity and final destiny; man essentially a social being; the bedrock foundation of social life. Offered every year. 3 sem. hrs.

Sl. 102 Introductory Sociology Social factors and social institutions; environment, habits, group behavior; the modern family, the state; social action; proper attitude toward social work; obligation of social service; practical aspects of social work; social influence of the teachings of Christ. Offered every year. 3 sem. hrs.

Sl. 203 Social Origins Social origins; recent ethnology; evolutionary theories of culture opposed by facts; the primitive family; the unit of social organization; private property among primitives; primitive religion; the moral law among primitives. Offered in 1938-1939. 3 sem. hrs.

Sl. 204 Social History A history of ancient, medieval, and modern social conditions and movements; the influence of Christianity; the guilds of the Middle Ages; the industrial revolution; the rise of capitalism; the Church's attitude. Offered in 1938-1939. 3 sem. hrs.

Sl. 205 Social Problems and Agencies Social pathology; crime and juvenile delinquency; poverty and pauperism; heredity and eugenics; feeble-mindedness and insanity; unemployment; Worker's Education Bureau in the United States; Knights of Columbus. Summer, 1938. 3 sem. hrs.

Sl. 301 Social Aspects of Poverty Poverty and its background; inequality, competition, individualism, and weakened cultural forces; formal and informal charity as a basic factor of relief; principles of relief. Not offered in 1938-1939. 3 sem. hrs.

Sl. 302 Sociological Aspects of Poverty Social reform; principles and tendencies in social legislation in the United States. Not offered in 1938-1939. 3 sem. hrs.

Sl. 303 The Family Factors of family integration; the causes of family disintegration; the industrial revolution and its effects on family life; divorce; birth control; factors of family reintegration. Summer, 1938. 3 sem. hrs.

Sl. 305 Christian Social Service A course intended for those preparing for professional social work. Catholic ethics and Catholic interpretation of social life; the Church's teaching; principles and methods in social activities; social value of the Old Testament; social influence of Christ's teaching. Offered in 1937-1938. 3 sem. hrs.

Sl. 306 Christian Social Reform This is a study of the Christian attitude toward the modern social questions. The Papal Encyclicals of Leo XIII and Pius XI are stressed. Offered in 1937-1938. 3 sem. hrs.

Sl. 307 Social Aspects of Industry A comprehensive study of social problems arising from industrial conditions. The causes of unemployment; industrial disorganization; growth of unionism; social unrest; poverty and relief; solution of the problem; "New Deal" policies. Offered in 1938-1939. 3 sem. hrs.

Sl. 308 Social Legislation The development of social statutes for the protection of the worker; minimum wage laws; shorter working days; compulsory education; sweatshop; mediation; compulsory investigation and arbitration; recent social laws. Offered in 1938-1939. 3 sem. hrs.

Sl. 315 Population Theories of population growth; differential birth and death rates and their social significance; relation of population pressure to food supply, standards of living, birth control, and migrations in different countries. Not offered in 1938-1939. 3 sem. hrs.

Sl. 316 Labor Problems Labor as a factor in production; unemployment; child labor and labor organizations; recent labor developments. Summer, 1939. 3 sem. hrs.

Sl. 318 Rural Sociology The development of the agricultural industry in the United States; modern problems of agriculture; causes of agrarian discontent; agricultural reform; the "New Deal" legislation. Not offered in 1938-1939. 3 sem. hrs.

Sl. 319 Criminology A scientific approach to the problems of crime, the criminal, punishment, and reform. Not offered in 1938-1939. 3 sem. hrs.

Sl. 320 Juvenile Delinquency The causes of juvenile delinquency; treatment; methods of diagnosis; probation and parole; the juvenile court system. Not offered in 1938-1939. 3 sem. hrs.

Sl. 322 Social Theory The development of social theory; contributions of Plato, Aristotle, and other Greek and Roman writers; the influence of Christianity; modern political and social contributors and their influence on modern social thought. Not offered in 1938-1939. 3 sem. hrs.

DEGREES CONFERRED

Session 1937-1938

COLLEGE OF ARTS AND SCIENCES

MASTER OF ARTS

Sr. Marie Thérèse Bart, C. S. J., Ph.B.	Sr. Dorothy Lanusse, S. S. J., A.B.
Mother Marie Adèle Bush, R. S. C. J., A. B.	Sr. Mary Agnes Mettier, M. H. S., A.B.
Ferdinand Howard Fisher, B.S.	Sr. Mary Kevin Trower, R. S. M., A.B.

MASTER OF SCIENCE

Sr. Mary Gerald Kusstatscher, S. S. N. D., B.S.	Mother Mary Pauline Rueve, R. S. C. J., A. B.
--	--

BACHELOR OF ARTS

Mabel Louise Arbour	Mary Theresa Gulotta
Lucille Agnes Ash	Mildred Loretta Hatrel
Robert Francis Aubert	Jacqueline Johnston
Brother Gontran Aucoin, S. C.	John Jacob McCann
Ida May Ayala	James Scott Mathews, Jr.
Florine Hattie Becker, <i>Magna Cum Laude</i>	Vera Claire Miller
Caroline Borne	Sr. Marie Louise Moore, D. C. St. V. de P.
Ruth Alice Brummerhof, <i>Cum Laude</i>	Katherine Mary Morgan
Joseph Stubbs Casey, LL.B.	Clarice Laure Newchurch
Joy Chalona	Nancy Noella Pecoraro
Mildred Ann Cristina, <i>Cum Laude</i>	Shirley Clare Pecot
Sr. M. of St. Martin Daly, M. de S. C.	Sr. Mary Florentine Pelzer, M. H. S.
Mary Catherine Dardis	Frank George Perschall
Anna Lou Durel	Helen Antoinette Ratermann
Azema Justine Flanagan	Margaret Florence Sullivan
Sr. M. of St. Joseph Gillen, M. de S. C.	Helena Florentia Vinet
Sr. Mary Eugene Gsell, S. S. N. D.	Audrey Mary Vogt
Stanley Jean Baptiste Guérin, <i>Magna Cum Laude</i>	Herbert Wilhelm Waguespack, Jr.
	Gladys Nell Wille
	Dolores Rita Wingerter
	Lorain Francis Wingerter

BACHELOR OF PHILOSOPHY

Mother Dionysius Anderson, M. S. C.	Sr. Ferdinandis Koller, S. C. C.
Hamilton Pershing Avegno	Carl Leslie Levet
Sr. Marie Alban Barcum, S. S. N. D.	Sr. Mary Raphael Lods, O. I. C.
Sr. Mary Naoma Bevering, S. S. N. D.	Sr. Mary Thea McCormick, S. S. N. D.
Sr. Evasia Braun, S. C. C.	Carl McMurry
James Everett Brown	Sr. Josildis Mary, S. C. C.
John Virgil Carlsen	Sr. Macaria Meyer, S. C. C.
Sr. John Berchmans Daigle, O. Carm.	Melida Victoria Monserrate, <i>Cum Laude</i>
Helen Adele Dobelman	Robert Morgadanes
Sr. Mary Eileen Donovan, S. S. N. D.	Clodagh Mary Oertling
Henry Julius Engler, Jr.	Brother Peter Petrus, S. C.
John Gerald Fitzgerald	Mary Cecilia Philips
Joseph Eugene Fogarty	Brother Hugh Ponthieux, S. C.
Marjorie Marie Forstall	Joseph Ridolfo
Sr. Speciosa Grote, S. C. C.	Marie-Louise Roper
Francis Xavier Hayes	Tulina Santiago
Sr. Miriam Hebert, O. Carm.	Virginia Noemie Schneidau
Lorraine Catherine Hynes	Sr. Mary Cecilia Sevin, O. I. C.
Virginia Mary Kepper	Nydia Jarreau Trudeau
	Sr. Mary Lawrence Venneman, S. S. N. D.
	Sr. Agnetta Vollmer, S. C. C.

BACHELOR OF SCIENCE

Jack Robert Anderson	Winfred Cornelius Craig, <i>Magna Cum Laude</i>
Stephen Joseph Bailey	Joseph Lee Dalferes, Jr.
Daniel Joseph Barrett	Fred George D'Aunoy, Jr.
Mario Peter Benitez	Ignatius Martin DeMatteo
Sr. Mechtilde Blanchard, O. S. B.	John Henry Edwards, Jr.
Anthony Francis Bologna	Joseph Cazaneuve Elmer
Gaetan LaBarbera Bologna	George Peter Gagnet, Jr.
Willienell Josephine Boudreaux	Rosetta May Ginsberg
Beverly Nunez Bourg	Jacob Joseph Haney, Jr.
Catherine Juliette Bourg	Victor Albert Hinterlang
Michael Joseph Byrne	Charles Edward Holloway
Leo Joseph Caballero	John Louis Hooper
Clay Joseph Calhoun	Harold Dennis Juge
Mary Lillian Carey	Charles Arthur Kepper, Jr.
Dennis Anderson Casey	Hayward Townsley Lawrence
Henry John Ciolino	Joseph Wilfred LeBlanc, Jr., <i>Cum Laude</i>
Salvatore John Ciolino	Marion John LeDoux
John Wilbert Connelly	
Eulalie Marie Coste	

BACHELOR OF SCIENCE—Continued

Idas Western Lohmann	Anita Dolores Romaguera,
Catherine Lyons	<i>Cum Laude</i>
Mrs. Alice Weems McDonnell	Robert James Salvant
Frank Lloyd Maerz	Cecil Marion Sanders
Sr. Winifred Mestayer,	Arthur Chester Schmidt
D. C. St. V. de P.	John Donald Schneidau, Jr.
Julius Michael Meyer	John Farrell Screen
Lloyd Joseph Mistrot	Sr. Mary Agnes Schulteis,
Isabel Monserrate	D. C. St. V. de P.
Armand Michell Montz, Jr.	Gordon Stevenson
Stanley Earl Morgan	Lawrence John Strohmeier
Robert Francis Morrow	Wallace Joseph Tremé
Robert Albert Nehlig	Peter Marshall Tullier, Jr.
Marion Louise Nix	Brother Bernard Tunney, S. C.
Ralph Robert Nix	George Francis Ullrich
Andrew Jerome O'Donnell, Jr.	Claude Elmer Valentine, Jr.
William Francis O'Toole	Charles Pascal Verderame
James Harvey Peterson	Joseph Larose Vignes
Mary Cecilia Pfister	William James Weaver
William Kohlmann Reed	Celeste George Wichser
